**Lars Kern** (#13-GTD Corvette Z06 C8.R / 13 Autosport) "Everything worked really well. The car is in a good spot and feels really comfortable. Everything is going to plan. The last pit stop wasn't great on my behalf. I went two or three feet long on the stop so we had to push back. We lost two or three spots but it feels like we have the pace to get back to where we've been. The car is easy to drive and feeling really good."

**Earl Bamber** (#31-GTP Cadillac V-Series.R / Cadillac Whelen) "We had a quick car in qualifying and we had to start in the back and unfortunately, Jack (Aitken) got a jump start, but I could see the car was good on degradation. That is sort of what our strength has been even going back to last season. We just sort of chipped away under the yellows and the guys did an amazing job in the pits and on the last round we cycled to the front and we just sort of maintained. A few people are cycling using new tires and used tires and some people were going backwards and forward. The 7 and the 6 (Team Penske) look pretty strong at the moment but there is still almost 20 hours to go."

**Ricky Taylor** (#10-GTP Cadillac V-Series.R / Cadillac Wayne Taylor Racing) "We are still in contention so that is the important part. Really happy with the car. We went off sequence slightly with that yellow and we stayed out with one of the Penske's. And kind of cycled to the back on the subsequent stop. We felt pretty good. It's amazing and you can see how much the track changes when the sun is going down. It's cooling down quite a bit. The car changed a lot, I won't tell you in what direction, but I think we are pretty happy. When the sun comes up tomorrow, we can use what we learned in those first two-and-a-half hours and make sure our car is strong at the end."

**Salih Yoluc** (#36-GTD Corvette Z06 C8.R) "All good in that run. It was a bit of a busy triple-stint out there. We have a good car so hopefully we will manage until the last couple hours and then we will attack for the win. There's a long time to go yet so let's see where we are in the morning."

**Tommy Milner** (#4-GTDPORO Corvette Z06 GT3.R) "The plan is to save some fuel here early on to be a little off strategy to shorten the race at the end. The first stint was fun and really good but the second stint wasn't too much fun anymore. A P2 spun in front of me and I thought I was going to be OK but all of a sudden another one appeared that I couldn't see. Then I had more really bad P2 traffic later and lost like five or six seconds on that lap. It's frustrating but obviously it's early. We're doing what we can and taking our licks now so at the end of the race we'll be in a better position. But the car is fine... it's totally fine."

At 7:13 pm (5h 33m) Ryan Hardwick (#912-GTD Porsche 911 GT3 R [992]) class leader, pits. Penalty - Improper Final Wave-By Procedure - Stop plus 3m36s.

At 7:15 pm (5h 35m) **Matteo Cairoli (#81-GTD Chevrolet Corvette Z06 GT3.R)** returned from behind the wall.

**Antonio Garcia** (#3-GTDPORO Corvette Z06 GT3.R) "All good for us so far. In the first stint both Fords pitted before the yellows so they got out ahead of us. I just realized it was worth staying where I was unless we had a clear opportunity to pass. That kind of played out; I could save tires and fuel, and we were able to jump them on the next stop. On the restart I was lucky to be on the right side when Tommy got caught out by two prototypes. From that point on, I just followed the pace. It's still unknown how the tires are going to behave with just taking two on a stop. I was taking it a little bit cautious, but I'd say the tire held up very well. I could open the gap a little bit but the (No. 9) Lambo was coming fast but when I saw they were struggling as much as I thought then we opened it up more. The Corvette was really good at the end of the stint. It's early but so far the car is doing what I want." (Corvette vs. Ford battle and pace?) "Last year we couldn't really stay ahead of them at any point. For sure we have more speed now and we can stay ahead. Our car is really, really good but I'm sure they will be too. Once we get to the time when it's time to single-stint the tires, it might be a little different for everyone." (The fight with the No. 4 Corvette early) "It's not great not knowing what to do with your teammate ahead of you. If he runs into traffic, you're definitely not going to throw your car in there like you would with any other car. But it's so early in the race that it doesn't really matter who is ahead. In a way, Nicky (Catsburg) followed Alex (Sims) for most of the stint and I did the same with Tommy (Milner). Everything eventually plays out. I kept my pace and the car is really good." (On level of aggression earlier) "I haven't been aggressive so far and trying to stay out of trouble. If I see someone really aggressive then I don't mind letting them by. I saw the Lambo flashing its lights at me from behind and I was like 'There's 20 hours to go.'"

At 7:16 pm (5h 35m) Matteo Cairoli (#81-GTD Corvette Z06 GT3.R) CP: 18, pits. Lots of bodywork repairs behind the wall. Pit Lane: 00:32

**Connor Zilisch (#31-GTP Cadillac V-Series.R)** "It was good. Earl (Bamber) gave me the car and I think we were third when we got out there. We had bit of differing strategy when I got in and we pitted a few laps early and undercut some of the other guys. We ran third the entire first stint, the caution came out and a bunch of guys had put tires on during that last stint after the yellow came out. It was a lot fun trying to hold them off and try and hang with the guys with new tires, but was certainly a challenge to do so. I had a lot of fun."

**Will Stevens (#10-GTP Cadillac V-Series.R)** "For us, I think we are pretty decent. We had a small problem with the air jack so we were losing quite a bit of time on the pit stops trying to fix that. But the team did good with that and we didn't go a lap down, which was the main priority. And then the last restart we started to make some headway which was good. Overall, I think it's positive so far. Feeling pretty decent in the car and we can keep chipping away."

**Orey Fidani** (#13-GTD Corvette Z06 C8.R) "It's been a really good start to the Rolex 24 for us. The opening stint was all about staying smart and not taking too many risks, and the team has done an incredible job setting us up to be competitive with our strategy. We avoided trouble at the start, hit our timing windows perfectly with the cautions, and handing over the car in a solid track position is exactly where you want to be in a race like this. Now it's all about executing and letting the team do what they do best."

**Casper Stevenson** (#81-GTD Corvette Z06 GT3.R) "The car isn't actually too bad. In the corners it is still very good. We are losing a bit on the straight because some bodywork is creating some drag or something like that. But in the infield and in the bends, it's really good. It's a shame that we lost the laps but this is our first and it would still be good to complete it. This is great experience so I'm happy that we are continuing."

**Scott McLaughlin (#36-GTD Corvette Z06 C8.R)** "It was awesome out there. The car feels really good. The boys are doing great pit stops right now. We're well in the mix. It's a matter of putting it together. We just have to look after things. I had a couple of contacts there on the right side and got caught up in some P2 traffic. (The visibility) is what it is. It definitely was worse in the second. Adding the fireworks made it crazy. There was stuff everywhere, but it was all fun."

Really quick quotes (IMSA will have full transcription of the press conference later)

**Laurin Heinrich** (#7-GTP Porsche 963 / Porsche Penske Motorsport) - "It's incredible. I'm at a loss for words to be honest. You know to stand here today on the pitstand in Daytona and get to get my first Rolex 24 win, and an overall win! I have to give it to my team, Team Porsche Penske Motorsport. And Felipe and Julian are incredible. I'm just so happy for Felipe to achieve this lifelong goal."

**Stewart Cox**, Team Principal (#04-LMP2 ORECA LMP2 07 / Crowdstrike Racing by APR) - "Fantastic. This race, you know the Rolex 24 Hours at Daytona is just something else. You spend 23 hour and 45 minutes trying to not do anything stupid while antagonizing Mike Tyson and he's told that he's allowed to beat the death out of you for the last 15 minutes. And when you get to the 23 hours and 45 minutes, he lets loose on you. All you have to do is stay standing and that's how I feel!"

**Neil Verhagen** (#1-GTDPOR BMW M4 GT3 EVO / Paul Miller Racing) - I don't even have words for this right now! The last hour, my heartbeat was going crazy. Emotions were flowing. We lost radio connection to Dan. He didn't have any communication with us but he handled it perfectly. We have the best team out there. The best drivers as well. Absolutely, just a phenomenal finish. [Dan without radio in the last hour] There isn't anyone I would trust more in that situation. We had our guy in and he delivered!"

**Russell Ward** (#57-GTD Mercedes-AMG GT3 / Winward Racing) - "Third time baby! Hell yeah!"

That was a ride, all while the snow fell and drifted in Indianapolis.
